

CAPABILITIES STATEMENT

Overview

Access Communications Group, LLC (ACG) is dedicated to provide **Telecommunication and Construction Services** in the USA by ensuring the highest level of quality and dependability.

Established in 1996, ACG is capable of managing both **large-scale and small-scale projects** from conception to completion.

With a strong commitment to excellence and customer satisfaction, ACG has emerged as a trusted partner for both **Commercial Customers and the Federal Government**.

ACG team is flexible, well skilled, heavily certified, and maintains the ability to **exceed expectations** both locally and nationwide.

ACG PAST PERFORMANCE

ADB - FIBER, DRILLING & CONDUIT INSTALLATION - EL PASO, TX VARIOUS CONTRACTS

SOW: Installation of fiber and conduit, including all splicing, testing, turning up C-RAN, running all appropriate reports and required testing, directional boring, and handholes.

Value: \$1.7 M

POP: 2022-2023

our work sites
w/ ADB

This project required working around the customer's schedule to include **Overnight Labor**

DOD - HANGAR PAINT - CANNON AFB, NM

FA485520C0015

SOW: This project involved a comprehensive painting and refurbishment effort for 11 separate hangars. The primary objective was to review the painted surfaces for lead contamination, clean and prepare all painted surfaces, and apply primer and paint coatings to ensure the hangars are in optimal condition.

Value: \$1,121,307

POP: June 2020 - Aug 2021

ICE/MISSION SUPPORT-DC - SECURITY FENCING DEMOLITION AND REPLACEMENT, PORT ISABEL DETENTION CENTER - LOS FRESNOS, TX

70CMSW24C00000010

SOW: Furnish all labor, tools, materials, permits, and supervision following the manufacturer's instructions to replace approximately 2800 linear feet of fencing, demolish approximately 1000 linear feet of fencing, and repair two sally ports.

Value: \$1,121,307

POP: June 2020 - Aug 2021

INTERNATIONAL BOUNDARY AND WATER COMMISSION: U.S. - MEXICO - DAM HIGH BLAST MAST INSTALLATION - EL PASO, TX

191BWC22C0005

SOW: Install 4 high mast lights, test soil conditions, obtain geotechnical results, establish structural foundations, provide approved electrical/structural designs, demonstrate pathways, remove fencing, install concrete foundations, trench pathways, assemble poles, install LED lights, wire to electrical panels, test lights, and train staff.

Value: \$1,030,656.43

POP: June 2022 - 90% Complete
